

ANASTASIIA HORBACHOVA

📍 Work authorization: EU (no visa sponsorship required) ✉ horbachova.site@gmail.com in anastasiia-horbachova 🌐 Portfolio

Summary

3+ years building full-stack **React / TypeScript / Node.js / PostgreSQL** web apps. Delivered **5+ projects** end-to-end, collaborating directly with product owners from requirements to deployment. **English — B2** (Duolingo certified).

Skills

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL

Frontend: React 19, Redux Toolkit, Vue.js, Three.js, Tailwind CSS, SCSS/BEM, Material UI, shadcn/ui, Radix UI, Framer Motion, i18next

Backend: Node.js, Express.js, MedusaJS, REST API, WebSockets, JWT, OAuth 2.0, Zod, Multer, Firebase

Databases & DevOps: PostgreSQL, MongoDB, Docker, Git, GitHub Actions, Azure, Vite, Webpack, ESLint, Postman, Figma

AI Tools: Claude AI, ChatGPT, Gemini, MCP Servers, AI-assisted development workflows

Knowledge: REST API Design, Agile/Scrum, Payment Integration, SEO & JSON-LD, Responsive Design, Accessibility (WCAG), CI/CD

Experience

Frontend Developer | Kryla Nadii — Education & Rehabilitation Centre

Fastiv, Ukraine | 07/2026 – 09/2026

- **Solely architected and developed from scratch** the public website of a special-education and rehabilitation centre — owned the full lifecycle from requirements gathering to design, implementation, and deployment on **Cloudflare Pages**
- Built a **430+ token** SCSS design system with fluid **clamp()** typography and CSS Grid across **42 breakpoints, 7 sections** on React Router, accessibility (semantic **ARIA**, **:focus-visible**, **prefers-reduced-motion**), and **JSON-LD** SEO, Open Graph, sitemap

Full-Stack Developer | Just Sleep — E-commerce Platform

Kyiv, Ukraine | 09/2025 – 07/2026

- Built full-stack e-commerce: **React 19** storefront (**catalog** with multi-filter sidebar, **product gallery**, **cart**, **multi-step checkout**, **wishlist**, **order tracking**) + **MedusaJS v2** backend on **PostgreSQL**, **6 custom modules**, **20+ REST API endpoints**
- Developed **phone + OTP** auth via **TurboSMS** (rate limiting, retry logic) and **Google OAuth 2.0** with custom **JWT** strategy — access/refresh rotation, httpOnly cookies, **401 auto-retry** axios interceptor
- Integrated **WayForPay** payment gateway (**card**, **Google Pay**, **Apple Pay**) with HMAC-MD5 signature verification, webhook handlers for order status sync, and refund flow
- Integrated **3 delivery carriers** (**Nova Poshta**, **Delivery Auto**, **SAT**): city/branch lookup, cost calculation, and warehouse search with server-side caching via a unified abstraction layer
- Built **SEO**: dynamic meta, Open Graph, Twitter Cards, **JSON-LD** (**Product**, **Organization**, **FAQ**, **BreadcrumbList**); transactional emails via **Resend** + **React Email**, **Zod** validation, **Multer** uploads

Full-Stack Developer | BioSafe — Medical & Veterinary Lab Consulting

Zaporizhzhia | 07/2025 – 10/2025

- Built full-stack website: **React + TypeScript** frontend with consultant profiles (modal detail views) and filterable diagnostic service listings; **Node.js/Express** backend handling contact form submissions with schema validation and email dispatch
- Integrated **Google reCAPTCHA v3** (**react-google-recaptcha**) with **server-side token verification** for invisible bot protection — score-based risk analysis, automatic challenge on suspicious requests, and graceful fallback; custom Ukrainian phone validation (**libphonenumber-js**)
- Integrated **EmailJS** with templated variables and retry-on-failure logic for reliable inquiry delivery; integrated interactive **Google Maps** with platform-aware deep linking (iOS Maps, Android Google Maps, desktop fallback)

Frontend Developer | TD Capital Market — Construction Company

Kyiv, Ukraine | 04/2025 – 07/2025

- Developed bilingual website (**EN/UK**) on **React + TypeScript** with **i18next**, project listings with multi-criteria status filtering, and photo gallery with interactive lightbox (zoom, swipe gestures); implemented design from **Figma**
- Optimized performance for a portfolio with **350+ photos** using **lazy loading** via **Intersection Observer API**, WebP image compression, responsive srcset, and scroll-reveal animations; deployed via **GitHub Actions** CI/CD

Full-Stack Developer | Cryptobit — Cryptocurrency Exchange Platform

Kyiv, Ukraine | 01/2025 – 07/2025

- Built crypto exchange on **React + TypeScript** with **JWT** auth (refresh token rotation); integrated **CoinGecko API** for real-time price tracking of 15 cryptocurrencies and a live currency converter
- Developed **real-time support chat** via **Microsoft SignalR WebSocket**: persistent message history with infinite scroll, synced read receipts, typing indicators, auto-reconnect with exponential backoff, and optimistic UI updates via **Redux Toolkit**
- Built admin dashboard with **Recharts** analytics, user/order management tables with server-side pagination and filtering, bilingual UI (**EN/RU**) via **i18next**; containerized with **Docker** and deployed via **Azure Static Web Apps** CI/CD

Junior Full-Stack Developer | BusTour — Travel Booking Platform

Ukraine | 10/2023 – 06/2024

- Contributed to a **full frontend redesign** of a legacy travel platform as part of an **agile team** under tech lead supervision — participated in **code reviews**, **sprint plannings**, and task **estimations**
- Built **authentication flow** (login, registration, multi-step verification) with **Vee-Validate** — reduced form errors by **25%**; occasionally worked on the backend to add **roles and custom claims to JWT**
- Refactored **legacy JavaScript callback-hell** to modern **async/await** across **10+ modules** and covered critical flows with **unit tests**

Open Source Projects

LaunchKit — Published 2 open-source npm packages

2026

- **LaunchKit-Shop**: CLI scaffolder generating a full e-commerce React 19 app (auth, cart, checkout) with **170+ SCSS design tokens** auto-computed from a single hex color
- **LaunchKit-Landing**: CLI generator for one-page landings with dark/light themes, i18n (UK/EN), Framer Motion animations, and glassmorphism UI

Education

National University «Zaporizhzhia Polytechnic» — B.Sc. Software Engineering

2024 – 2027

Zaporizhzhia Electrotechnical Professional College — Jr. Bachelor's SE

2020 – 2024
